

HEI Engineering Group has entered the Revit world!

HEI has been working on Revit projects for over two years, but we are now promoting our services. HEI just completed a 7,000 sq ft. new church building in the Cleveland area. The church is complete with a 250 seat sanctuary, fellowship hall, kitchen, classrooms, and offices. The building is currently under construction with an occupancy in early 2020. HEI is proud to work with Fidei Architecture on this project.
